

OS Types → OS Structures → System Calls → OS Functions

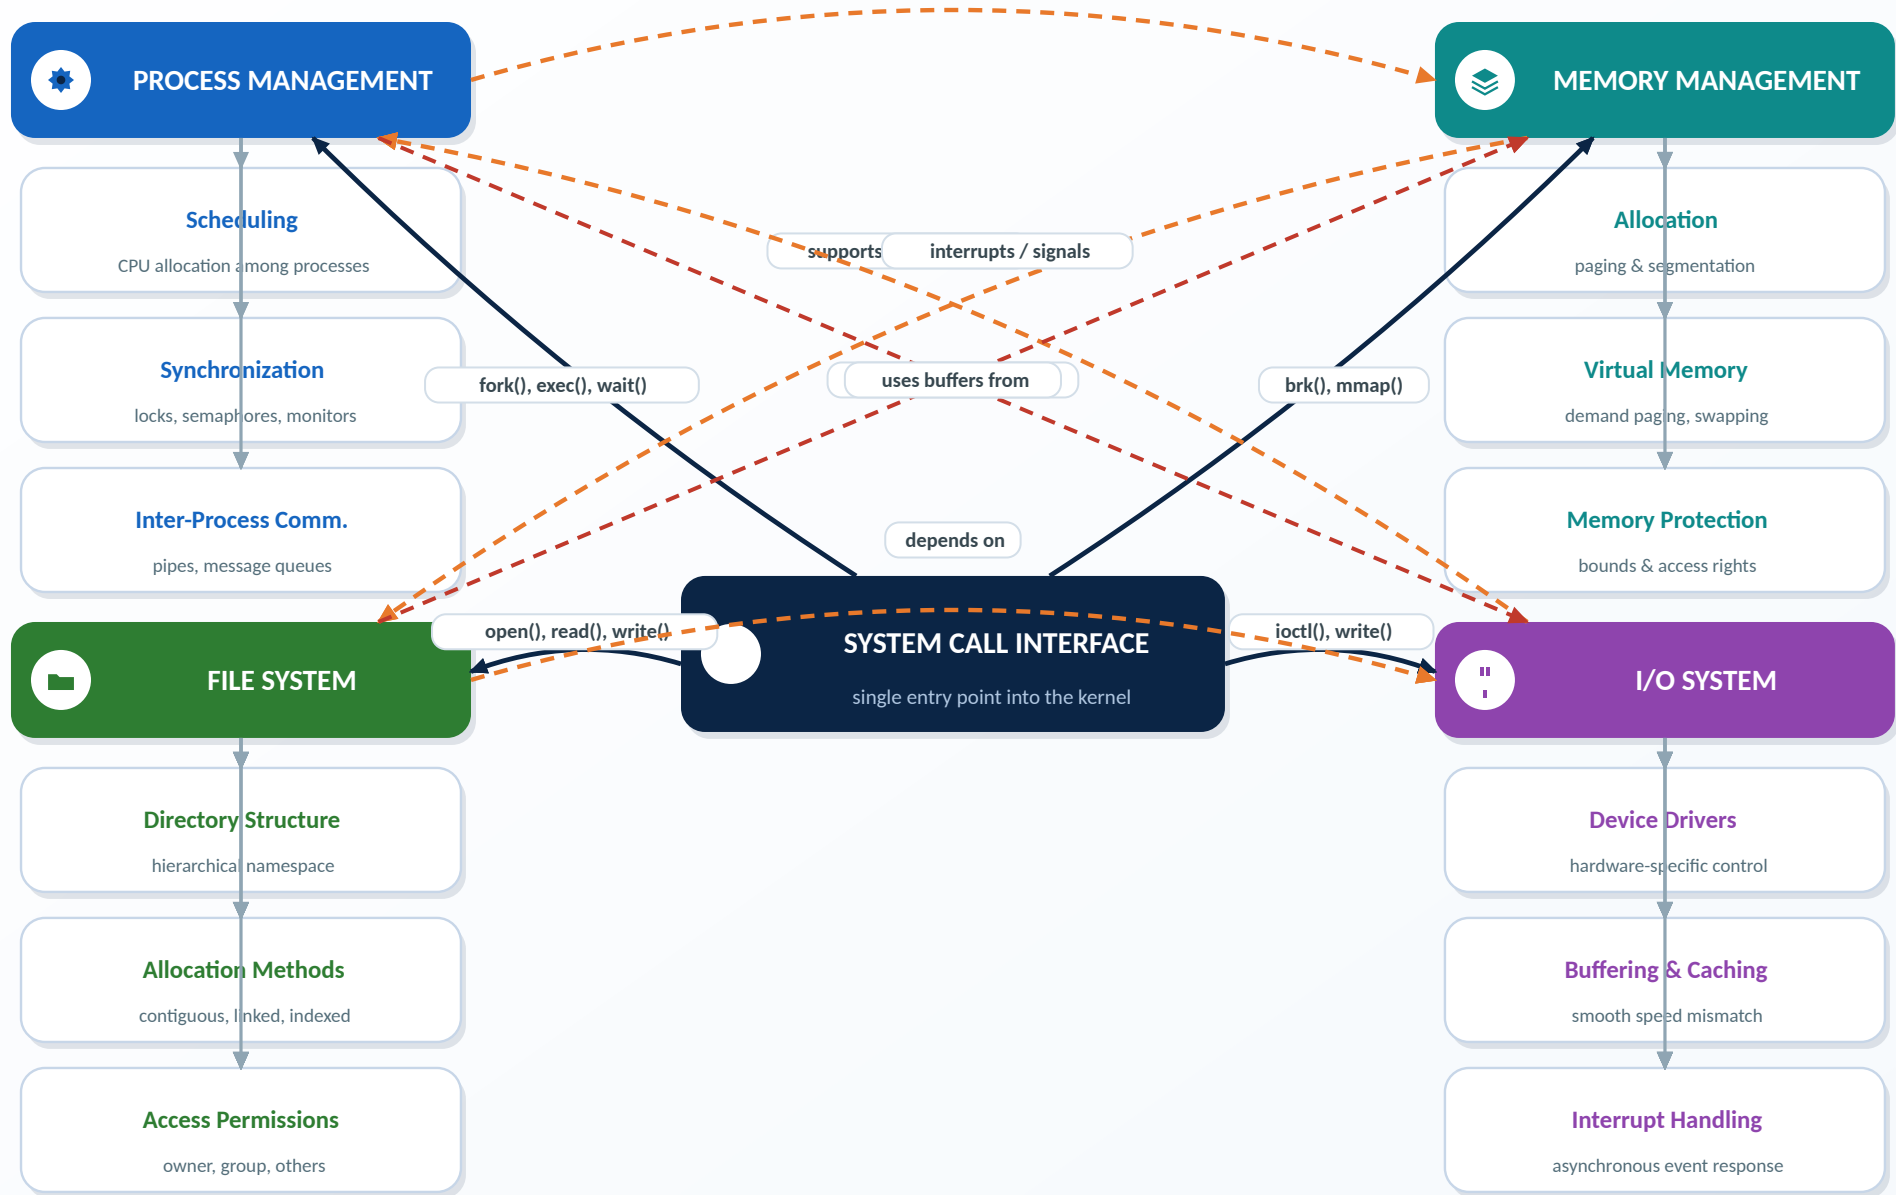

LEGEND: — Main hierarchy

--- Structure → System Call influence

--- System Call → Function realization

--- OS Type → Structure suitability

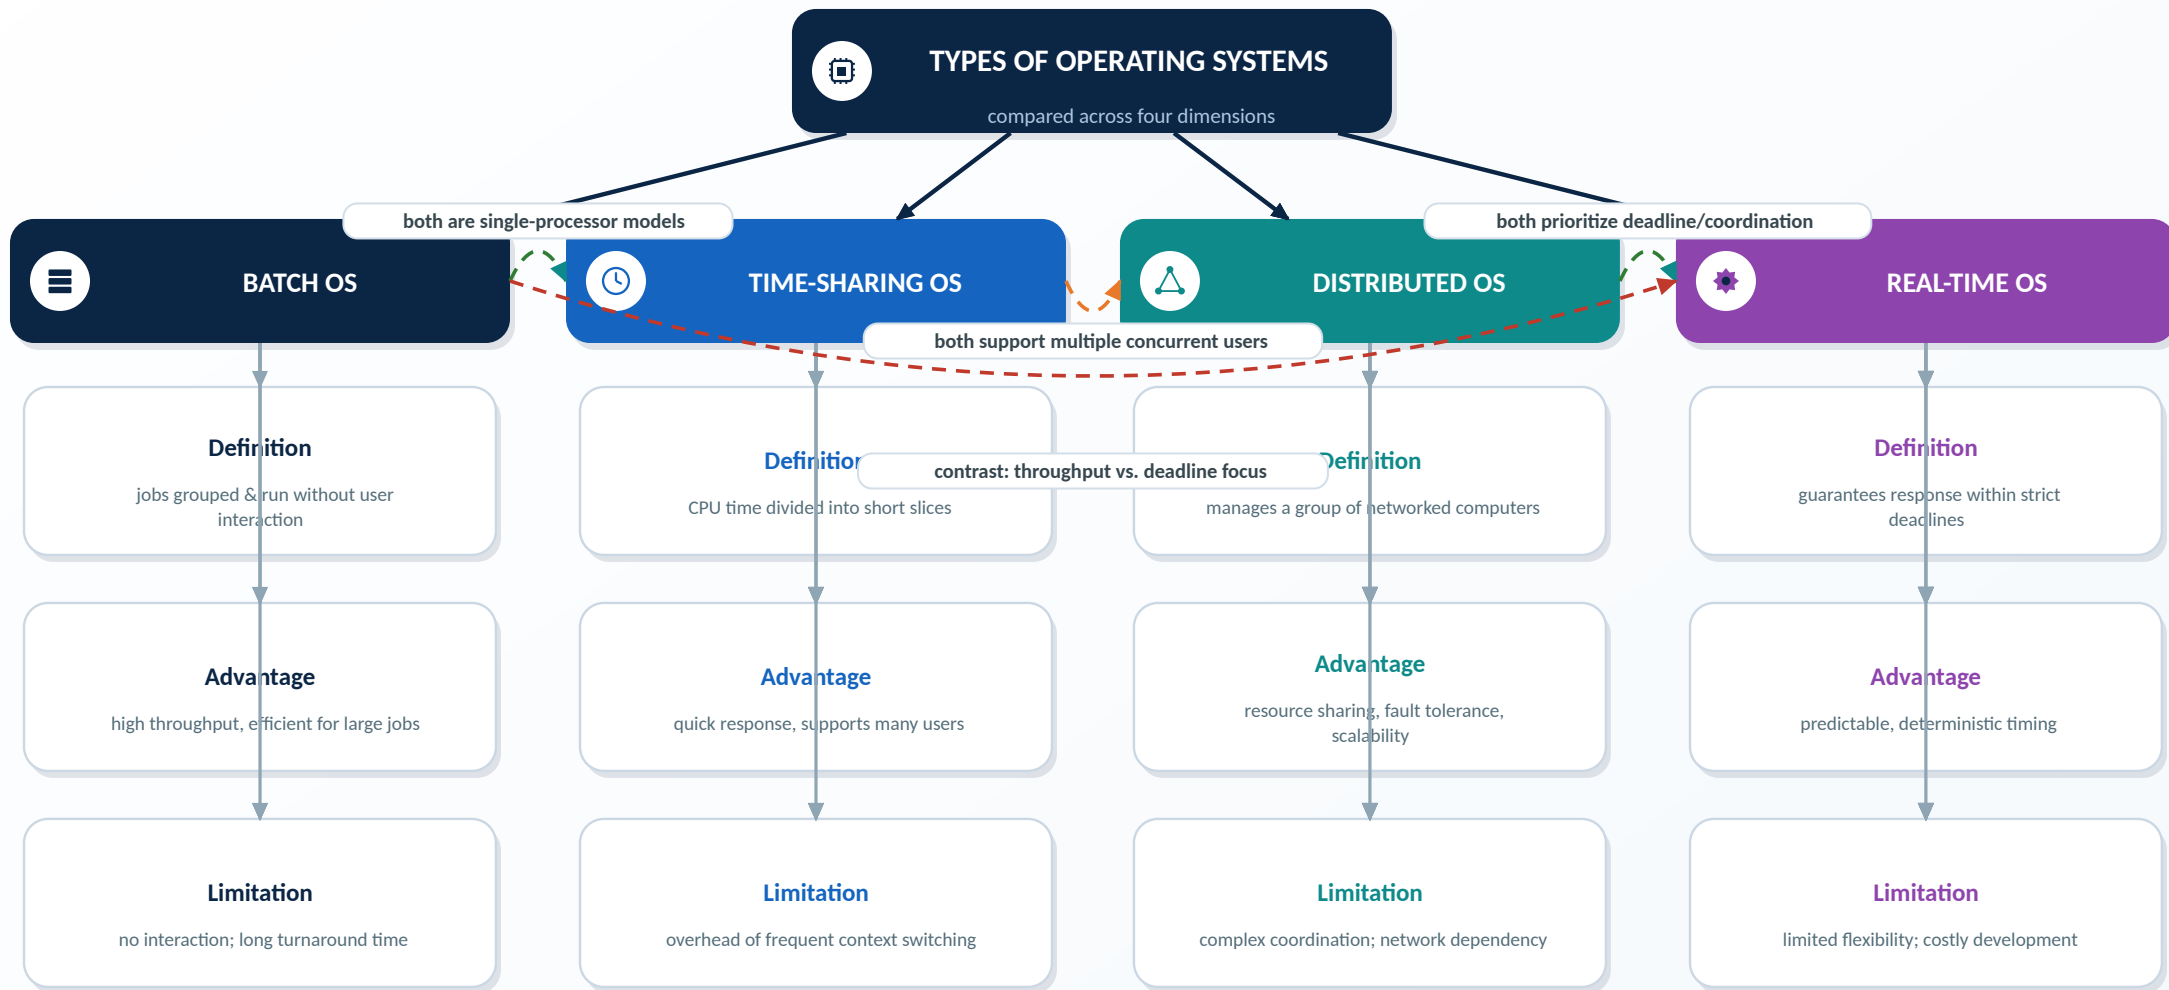

LEGEND: — System-call interaction

--- Direct interdependency

--- Cross-component dependency

Comparative Map: Batch, Time-Sharing, Distributed & Real-Time OS

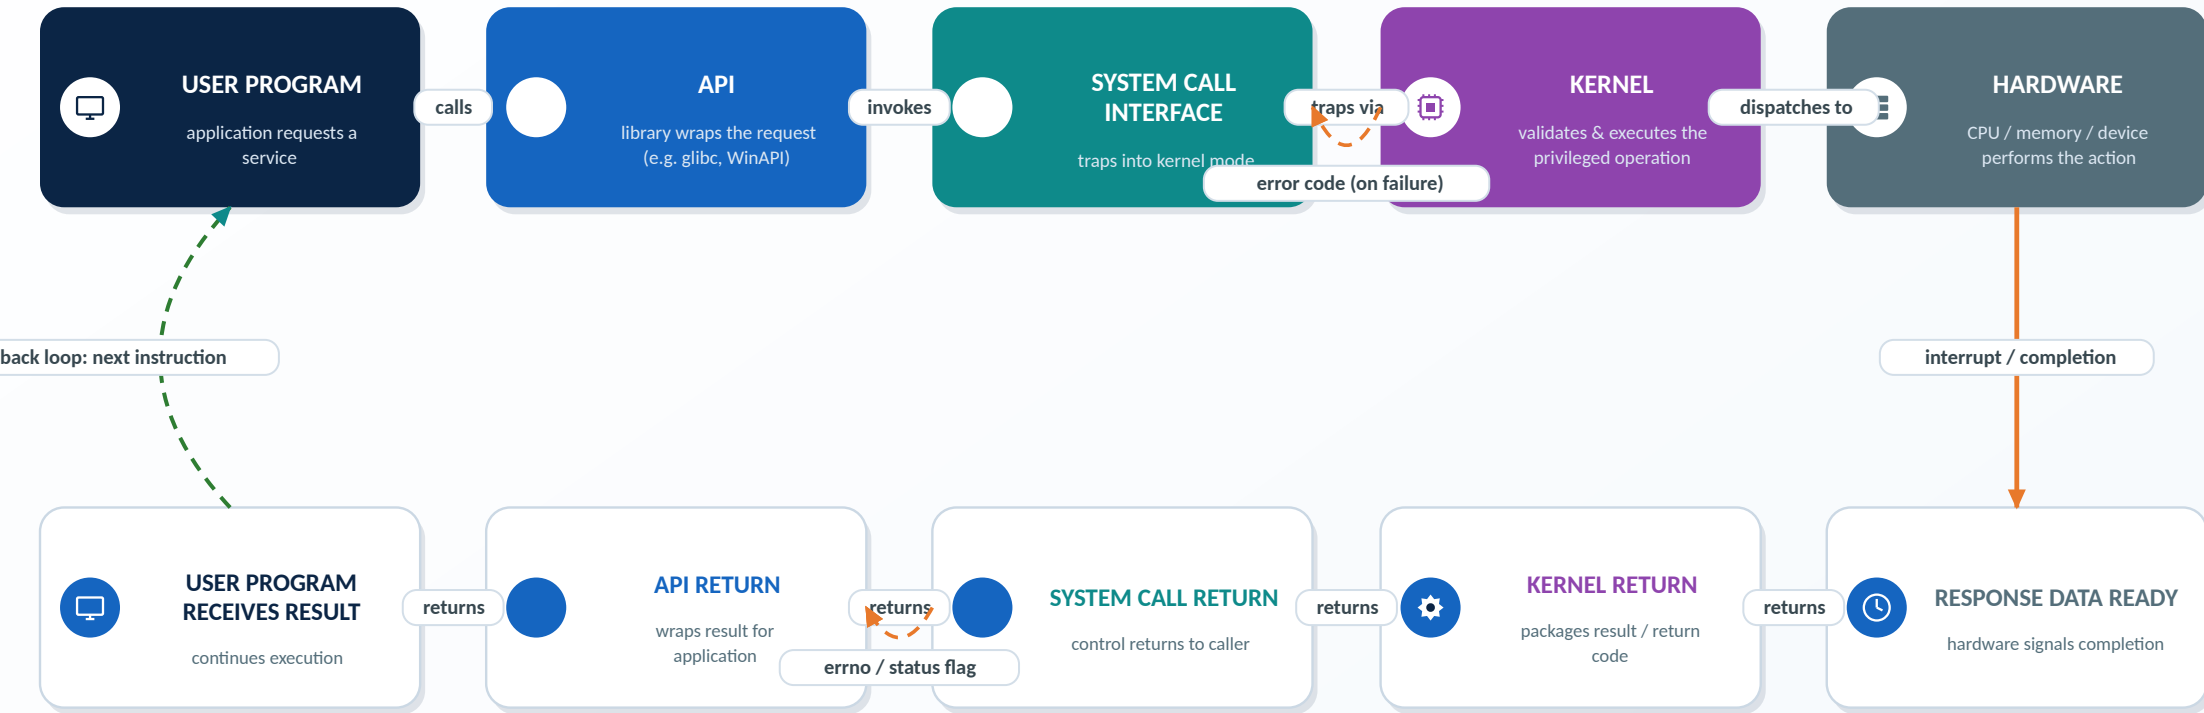

LEGEND: ■■■ Similarity

■■■ Shared capability

■■■ Key contrast

— Classification link

Execution Flow: User Program → Kernel → Hardware → Response
